3rd Year IT Student – Wroclaw University of Applied Informatics

Profile

Analytical and motivated IT student specializing in **Data engineering**, **Python scripting**, and Linux automation. Experienced in processing, transforming, and analyzing structured data. Passionate about ETL workflows, data pipelines, and backend systems. Seeking a Data Engineering or **Data Analytics** Internship in Wroclaw to contribute to real-world data projects and grow technical expertise.

Technical Skills

Programming: Python (Intermediate), SQL (Intermediate), HTML/CSS (Basic)

Data Tools: Git, GitHub, Bash, ETL basics, data cleaning & transformation

Operating Systems: Linux/UNIX (Intermediate), Windows

Other: Documentation, analytical thinking, problem-solving

Education

Wroclaw University of Applied Informatics – Wroclaw, Poland Bachelor of Engineering in Information Technology 3rd Year, 5th Semester (Expected Graduation: 2027)

Certifications

Cisco Certified Network Associate (CCNA) – Cisco Issued: January 30, 2025 Covers networking fundamentals, IP services, security fundamentals, automation, and programmability.

The Complete SQL Bootcamp: Go from Zero to Hero – Pierian Training Issued: December 29, 2025

Comprehensive training in SQL database fundamentals, complex queries, data analysis, and database management.

Projects

Data Engineering SQL Project

- Built SQL workflows for data exploration, cleaning, and transformation.
- Implemented joins, aggregations, indexing, and performance-oriented queries.
- Practiced warehouse-like thinking and structured dataset handling.

Log Analyzer (Python)

- Python script for parsing and summarizing system log files.
- Implemented file I/O, regex parsing, error handling, and reporting logic.
- Demonstrated modular coding and data-driven analysis.

Linux Automation Scripts (Bash/Python)

- Automated system cleanup, monitoring, and routine Linux tasks.
- Used cron + Bash/Python to streamline operations.
- Improved understanding of Linux internals and scripting best practices.

Web Scraper (Python)

- Extracted structured web data using Python.
- Implemented parsing, data export (CSV/JSON), and scraping logic.
- Reinforced ETL-style thinking and transformation steps.

Soft Skills

Problem-solving , Fast learner , Initiative , Teamwork , Technical communication

Languages

English (Fluent) , Turkish (Native) , Polish (Basic)
